Volume 2 – Appendix R – Fuel Handling Design Criteria

Summary: Appendix R contains design codes and standards and general design criteria that will form the basis for the design of the fuel handling systems. The appendix includes information on the supply, delivery, storage, and dispensing of both gasoline and diesel fuel systems installed at the site for the fuel requirements of the maintenance vehicles.

Proceeding: This Appendix R references the Solar Two Power Project AFC, Volume 2, Appendix R, filed with the California Energy Commission on June 30, 2008. This application (08-AFC-5) was deemed Data Adequate by the California Energy Commission on October 8, 2008.

Relevance: The SES Solar One project will utilize the same fuel handling design criteria as will be utilized in the SES Solar Two project. Members of the public that desire to learn detailed information on the fuel handling systems can refer to Appendix R of the SES Solar Two project AFC.

This incorporation by reference is requested pursuant to 20 CCR 1704 (a) (2).

Changes in Appendix R

There are no changes to Appendix R.
